

Space Clearing

Space clearing is an ancient ritual that releases the stagnant energy in the etheric space around us, which normally involves drums, bells and feathers. Space clearing removes energy absorbed by walls, ceilings or furniture as a result of conflicts, divorce, death, any sad situations or negative events that took place in the property. Space clearing is mostly used for homes, but also for businesses.

Ideal times to use space clearing in your home include when you move into a new house; you feel stuck in your life; you begin a new job or start a new business; after a separation or divorce; an argument, illness or death. After the space clearing you will instantly feel a significant boost in your physical, emotional, mental and spiritual wellbeing.

Space Clearing package

Space Clearing costs between £250 and £600, depending on the size of the property.

The package includes:

- Initial consultation and assessment
- Space Clearing ceremony
- Feng Shui recommendations

Prices for space clearing for businesses start from £400.

Feng Shui

Feng Shui is an ancient art that offers tips for rearranging your living environment in order to redirect the energy flow to improve your life. This Chinese practice helps to create a harmonious surrounding where you can flourish and enjoy a balanced and happy life. Feng Shui helps people reach their highest potential in every area of their life – health, family and children, wealth and prosperity, career, spiritual health and wellbeing.

Feng Shui consultation

Feng Shui costs £80 per hour.

The consultation involves:

- Assessment of each room/area
- Checking for the element colour
- Highlighting the major points of the room/area
- Discussing what needs to be changed and suggestions for harmonious arrangement
- Use and implementation of the Bagua Map

Clients can take notes during the consultations. A written report costs an additional £50
